

MDX-500 SERIES

THE NEW MDX SERIES

TEST EVERY BATTERY TECHNOLOGY, MEASURE THE STARTING AND CHARGING VOLTAGE, AND PRINT THE RESULT IN A MINUTE.

The MDX-500 Series is the first tester at entry level that allows you to service every 12 volt vehicle battery that comes into your workshop, including start-stop battery technology like EFB. And give a reliable result that allows you to advise your customers.

1. Hook up the tester
2. The voltage shows at startup
3. Press ENTER and select the test parameters like the test type, battery location, technology, standard and rating
4. Test
5. Print or press ENTER to measure the starting and charging system voltage

Instant voltage reader at startup

Field replacable cables

Customizable printout for transparency with the customer

Start/stop testing technology

Bad cell detection

Data card slot for software upgrades

Reverse polarity protection

26 languages software and quick manual
