

FIRE F30

Portable professional induction heater.

CODE: T04.004.01 - FIRE F30-3.5 kW
 (Red colour with lateral tool)

Standard equipment:

- Lateral tool
- Power supply cable

Optional equipment:

- Various special tools

TopAuto offers a full range of latest generation induction heaters. These new machines stand out for their modern design and their reliability. As a result of careful research and years of experience, they are also built with the best quality Italian components as well as with our technicians' care and expertise. All this in order to guarantee a simple and safe use to each operator. FIRE F30 induction heaters are ideal for a wide range of applications: brazing, jointing, quenching, pre / post heating straightening, annealing, etc.

Some of the applications in the automotive sector: Wheel alignment, release of nuts, bolts, ball bearings, mufflers, application on brakes.

Technical information

Technical features

| | |
|---|-----------------------------------|
| Input power | 3.5 kW |
| Amperage | 16A |
| Voltage | 230V / 1 PH + T 50 Hz |
| Frequency level | 15 - 30 KHz |
| Protection degree | IP21 |
| Working Cycle (at 20 ° C room temperature at maximum power) | 9 min (± 5%) |
| Cooling system | Hydraulic heat exchanger with fan |
| Tank for coolant | 2 lt |
| Manipulator length | 300 cm |
| Power supply cable length | 800 cm |
| Size | 50 x 25 x 28H cm |
| Weight | 13 Kg |
