## Key benefits

### Valeo fuel caps

- ✓ **Solid locking of the petrol caps** to secure the tank.
- ✓ **A quality ensured** by the resistance and the reliability of materials used.
- ✓ **Easy-to-fit.**  
**A secure and ecological valve ventilation system:**
  - **respect of EEC safety standards:** in the event of a crash or accident, the risk of fuel leaking from the tank is minimized and the risk of fuel ignition is reduced;
  - **respect of the environment** by reduction of air pollution.

### Valeo urea cap

- ✓ **Environmental friendly**  
Valeo contributes to a cleaner environment by offering components that reduce toxic emission of diesel trucks.
- ✓ **Reliable & highly qualitative**
  - Components are long lasting thanks to the good quality of the materials.
  - Metal barrels of the caps guarantee maximum strength and avoids urea corrosion & anti corrosion surface treatment of the caps guarantee a maximum strenghts and avoid urea corrosion.
- ✓ **Easy to recognize**  
A blue cap & a blue key cap to avoid confusion with fuel caps & keys.
- ✓ **Safe**  
Barrels & keys ensure a secure locking.

« For customer satisfaction,  
the Valeo caps range offers  
the best quality/price ratio  
of the market. »

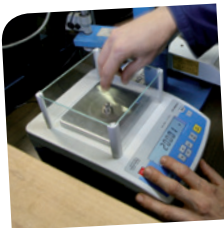

All caps are OE quality and undergo rigorous test according to OE specifications for a secure & long lasting offer.

During the comprehensive tests, the cap is checked to ensure no damage to the body / seals and that no leakage occurs.

- ✓ high and low pressure tightness test
- ✓ high and low temperature test and temperature variation
- ✓ closing and opening coupling operations
- ✓ prolonged thermal ageing
- ✓ Impact test
- ✓ Wear test
- ✓ Valve tests (depending on models)

**The conformity test ensures both a reinforced security in case of crash and a reduced pollution in the environment during the entire lifetime of the cap.**
