

FIRE F50 230V

Wheeled professional induction heater with radiator.

CODE: T04.007.01 - FIRE F50-5 kW
 (Red colour with lateral tool)

CODE: T04.007.02 - FIRE F50-5 kW
 (Gray colour with lateral tool)

Standard equipment:

- Lateral tool
- Power supply cable

Optional equipment:

- Various special tools

TopAuto offers a full range of latest generation induction heaters. These new machines stand out for their modern design and their reliability. As a result of careful research and years of experience, they are also built with the best quality Italian components as well as with our technicians' care and expertise. All this in order to guarantee a simple and safe use to each operator. FIRE F50 induction heaters are ideal for a wide range of applications: brazing, jointing, quenching, pre / post heating straightening, annealing, etc.

Some of the applications in the automotive sector: Wheel alignment, release of nuts, bolts, ball bearings, mufflers, application on brakes, straightening of transmission shafts.

Technical information

Technical features

Input power	5 kW
Amperage	16A
Voltage	230V / 3 PH + T 50 Hz
Frequency level	15 - 30 KHz
Protection degree	IP21
Working Cycle (at 20 ° C room temperature at maximum power)	30 min (± 5%)
Cooling system	Hydraulic heat exchanger with fan
Tank for coolant	20 lt
Manipulator length	300 cm
Power supply cable length	800 cm
Size	56 x 60 x 116H cm
Weight	67 Kg
