*Experience the world
close up with an open roof.*

Webasto roof systems

Anyone who spends a lot of time in a car wants to feel good all round. Feel the sun, breathe fresh air and enjoy more freedom – simply experience the world with all of their senses. Webasto roof systems are perfectly fitted to make this wish come true!

You want to enjoy a whole new driving experience and place great store in clever safety technology? With one of the many Webasto sunroofs - open or closed - you can enjoy comfort, safety and a light-flooded passenger compartment 365 days a year.

Light

Fresh air

Driving fun

Feel the freedom – with Webasto roof systems.

A lot of light just makes you feel better.

The number one feel-good factor is and will remain light. A sunroof immediately brightens things up for passengers and optically enlarges the inside of the vehicle. Creating a much more pleasant atmosphere.

Enjoy fresh air and keep fit.

With fresh air in your face your driving becomes much more relaxed, concentrated and thus safer. A sunroof means no draughts when the side window is open, rather the air comes evenly and pleasantly from above.

So much more driving fun.

The sales figures of 5 million Webasto roof systems fitted world-wide ex works speak for themselves: you can't beat a true open-air feeling in your own car. You too should experience this very special feeling of more freedom.

Intelligent safety technology – with guaranteed comfort.

Auto-Close and Auto-Retract system.

The Auto-Close system closes the roof automatically as soon as you switch the ignition off. The Auto-Retract system prevents the roof from closing as long as the opening is not completely free. This effectively prevents crushing.

The ideal supplement to an air conditioning system.

International studies have shown that the air circulation inside the vehicle is only noticeably optimised by a sunroof. Whereas the air conditioning system is limited to simply cooling, the sunroof ensures a pleasant ventilation with fresh air.

Protective Venus® Glass.

The tinted Venus® safety glass reflects 99 % of ultraviolet radiation, 80 % of light and 97 % of heat. This special high-tech glass ensures a friendly atmosphere inside the vehicle and at the same time protects against the sun's heat and harmful ultraviolet radiation.

*All-round comfort
at the press of a button.*

Hollandia 100

Simply convincing.

A generous feeling of space combined with pleasant fresh air enjoyment: the Hollandia 100 opens up fresh air comfort at a reasonable price. The classic pop-up sunroof convinces with its modern design and technical finesse: the pane of glass can be completely removed. What's more, the Hollandia 100 is suitable for almost every type of car.

Technical comfort features:

- Protective Venus® Glass against UV radiation and solar heat
- Latch handle for individual opening positions

Mode of operation:
pop-up roof

Hollandia 300

Very popular.

The versatile Hollandia 300 tilt and slide roof is one of Webasto's most popular sunroofs thanks to its variability and attractive looks. With its two designs, the Hollandia 300 is suitable for even very arched vehicles, since the glass roof simply slides over the car roof. The spoiler helps minimise draughts.

Technical comfort features:

- Protective Venus® Glass against UV radiation and solar heat
- Auto-Close system and Auto-Retract system (with Soft touch operation)
- Two programmable opening positions (with Soft touch operation)

Mode of operation:
tilt and slide roof

Every roof
a real eye-catcher.

Hollandia 400

A real eye-catcher.

The Hollandia 400 gives you a real cabrio feeling. The sporty folding roof is a real eye-catcher and can be opened at random: from a narrow slit to a fully open roof. The Hollandia 400 is individually adapted to the interior trim and is an optical highlight in any saloon.

Technical comfort features:

- Convertible top material of durable vinyl, weather / UV resistant
- Programmable opening positions (DeLuxe model)
- Wind deflector for perfect aerodynamics
- Auto-Close system (DeLuxe model))

Mode of operation:

Hollandia 500

Impressively open.

The huge panorama roof stands out with its elegant looks and numerous technical details. The combination of front and rear roof opens up a whole new dimension for your personal comfort requirements. Whether fixed or mobile: the two panels can be combined at random. So that your rear passengers enjoy more light and fresh air.

Technical comfort features:

- Protective Venus® Glass against UV radiation and solar heat
- Soft touch control panel for the driver (also in rear with Double Slide)
- Front tilt and slide roof, fixed or opening rear glass element
- Auto-Close system and Auto-Retract system

Panorama as far
as the eye can see.

Hollandia 700

Convincing OEM looks.

The elegant Hollandia 700 is ideally integrated into the roof liner so that you can't tell it from a roof fitted ex works. When closed, the tilt and slide roof harmonises perfectly with the car – when open it disappears into the roof lining. The sunblind matches the inside of the car perfectly with its elegant design looks.

Technical comfort features:

- Protective Venus® Glass against UV radiation and solar heat
- Auto-Close system and Auto-Retract system
- Wind deflector for perfect aerodynamics
- Programmable opening positions

Mode of operation:
integrated tilt and slide roof

Hollandia 900

There's none larger.

The Hollandia 900 indulges you with the largest retrofit roof area of all integrated tilt and slide roofs. The newly developed twin panel technology causes a furore and makes for comfort. The rear glass panel can be fully opened whereas the front area remains as an oversize wind deflector. The advantage: minimised draughts and noise, even at high speeds.

Technical comfort features:

- Protective Venus® Glass against UV radiation and solar heat
- Newly developed wind deflector for very quiet driving enjoyment
- Auto-Close system and Auto-Retract system
- NEW: colour variants for sunblind, operation and rain channel
